## AUTHORIAL INTENTION...

*Infer what was the purpose of this section of the book was. What are two aspects (character, setting, theme, etc.) of the novel that author developed by writing these pages?*

---

*In the box to the right, name the places visited in the pages you read. Then, transfer them to your PLACE JOURNAL. You want to add in physical descriptions of the place, name the characters that were there, what happened in the space, anything new you learned. For this, use textual evidence to support your findings with page numbers. This will help later for your final project/paper.*

*For some sections, you will have many places and for others you will have only two...it depends...*

---
